Data Scientist

TOTAL EXPERIENCE: 5+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 2

REQUIRED SKILLS:

Tech - Data extraction, analysis and statistical modelling, Python, SQL, Hadoop/Hive, Scala, time-series forecasting, Data integration, Reporting, Data Modeling, Azure platform, API's, Visualisation, Engineering & Hyperparameter optimization Func - Supply chain experience

Product Owner - Capabilities

TOTAL EXPERIENCE: 10+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 1

REQUIRED SKILLS:

Func - SAP functional experts: Data Analytics & Master Data Product Owner, SAP S/4HANA, SAP MDG, SAP IBP, Master data standardization, Governance, Supply chain visibility, Inventory management, Operational performance, Agile, Data governance frameworks Tech - SQL, Power BI, Understanding of supply chain master data, Inventory data structures, Python, R, Kinaxis or Blue Yonder

Business Analyst- Data Science & Digital Solution

TOTAL EXPERIENCE: 5+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 1

REQUIRED SKILLS:

Experienced AI Business Analyst skilled in gathering and documenting AI/GenAI use cases, driving automation, and aligning solutions with business goals.

Strong in stakeholder engagement, requirement analysis, and cross-functional collaboration with deep knowledge of process improvement and ROI assessment.

Business Analyst Capabilities

TOTAL EXPERIENCE: 5+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 10

REQUIRED SKILLS:

Tech-savvy Business Analyst with supply chain domain, proficient in SQL, process mining (e.g., Celonis), and RPA tools.

Experienced in identifying AI/GenAI use cases, building business cases, and aligning technical solutions with operational needs.

Project Manager

TOTAL EXPERIENCE: 7+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 6

REQUIRED SKILLS:

Project Manager with expertise in end-to-end project delivery, stakeholder management, and cross-functional team leadership.

Skilled in Agile, Scrum, and Waterfall methodologies with hands-on experience in tools like JIRA, Azure DevOps, and SQL for data-driven decision-making.

Azure Data Engineer

TOTAL EXPERIENCE: 5+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 6

REQUIRED SKILLS:

TAzure Data Engineer with hands-on expertise in building and managing data pipelines using Azure Data Factory, Synapse, and Data Lake.

Skilled in ETL/ELT processes, SQL, and performance tuning, with strong experience in designing scalable cloud-based data solutions

Full Stack Developer

TOTAL EXPERIENCE: 4+ years

LOCATION: Pune, Mumbai, Bangalore / Hybrid

TOTAL NO OF POSITIONS: 2

REQUIRED SKILLS:

Full Stack Developer skilled in building responsive web applications using React, Angular, Node.js, and .NET Core. Proficient in RESTful APIs, SQL/NoSQL databases, and DevOps tools with strong experience in end-to-end software development and cloud deployment.

HIGHLIGHTS & MEMORIES

vCreaTek Mumbai's Annual Day was a grand celebration of teamwork, achievements, and shared happiness!

Abhishek shared a joyful get-together with Virali and Jyotiraditya Singh in US

Fun Friday at vCreaTek Pune saw both in-office and online teams bonding over a joyful and mindful game session

HIGHLIGHTS & MEMORIES

ISO audit at vCreaTek Pune for 2025-26

Leaders gathered online for a dynamic Fireside Chat on how Agentic AI is redefining the future of supply chain management

Heartfelt congratulations to Anil & Sunita on their wedding — best wishes from your vCreaTek family!

Team vCreaTek Pune came together to celebrate Vilas ji's special day with smiles, cake, and warm wishes!

Milestones

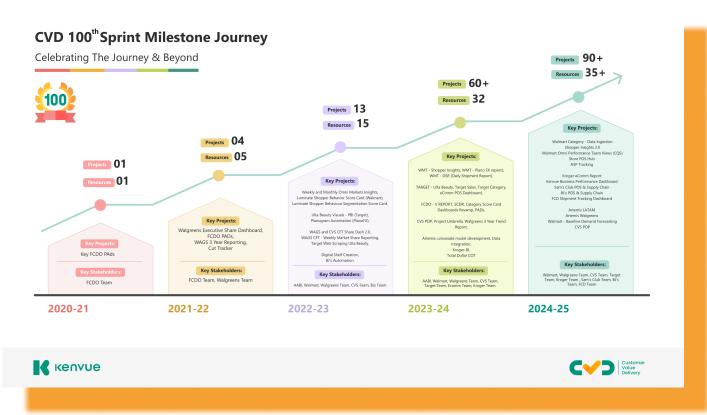

Wow 100 Sprints! An incredible journey for CVD! A Milestone to Celebrate!

When we started our journey in 2020, with 1 project & 1 resource starting our first sprint with issues created on Jira board, little did we know then that we would walk this journey together so far and complete 100 Sprints which is 200 weeks of work and more. We now are an incredible group of 35+ professionals, working on 90+ projects and growing stronger together as a team with every passing day.

Celebrating our 100th sprint is a testament to our resilience and teamwork. Each sprint has brought us closer, taught us valuable lessons, and fueled our ambition.

Let's honor this milestone by committing to continuous improvement and innovation.

Here's to our future - let's make it even brighter and more successful together!

DTO Kare-Celebrating a Year of Support, Service & Smiles

This is DTO Kare-What started as a small team of just 15 members working in a general shift has now grown into a robust and dedicated force of 34 professionals — proudly known as the DTO KARE Support Team.

Over time, we've evolved into a 24x7, 365-day operational team, providing round-the-clock support with increased expertise and stronger collaboration. This transformation reflects our commitment to continuous improvement and customer-centric service.

We're not stopping here — we've widened our scope by cross-training across functions and embracing tools like Power BI,DataBricks,Power Apps enabling us to support reporting needs independently without relying on BAs or POs.

Here's to our journey so far, and to the continued success and growth of the DTO KARE Support Team

Celebrating Inclusivity: A New Monthly Series

There's a famous saying "Don't judge a book by its cover." In the spirit of that, I invite you not to judge this series by its title alone.

When we think of Diversity, Equity, and Inclusion (DEI), we often associate them with specific groups or communities. But in truth, DEI includes everyone. It's about recognizing that each person brings unique experiences, perspectives, and value to the table. Diversity goes beyond gender. Equity is more than fairness in opportunity. And inclusion isn't limited to physical accessibility — it's about making sure everyone feels seen, heard, and valued.

With this in mind, we're excited to introduce a new monthly newsletter series: Celebrating Inclusivity. Through this initiative, we aim to highlight stories, insights, and voices from across our organization — showcasing the many ways we can learn from and uplift one another.

If you're interested in contributing or have a story to share, please reach out to Namrata Chaudhari at Namrata.c@vcreatek.com. We'd love to hear from you.

Let's celebrate what makes each of us unique — together.

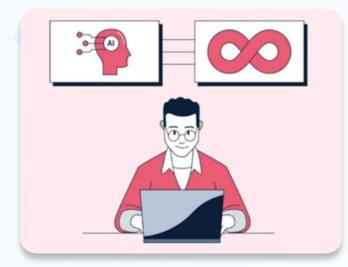

TECH PULSE Latest Tech Buzz

It's incredible to think that in 2025, many manufacturing and distribution companies still rely on ancient enterprise resource planning (ERP) systems that literally feature "green screen" technology. These applications perform poorly and are impossible to maintain, with tech support that expired years ago. **READ MORE**.

Artificial Intelligence (AI) and DevOps are joining forces to transform software development. Al's capacity for automation and learning enhances DevOps' emphasis on teamwork and ongoing development, resulting in quicker release cycles, higher-quality software, and more operational effectiveness. **READ MORE**

A robotic revolution is underway around the world, with the industry experiencing remarkable growth and exciting innovation. A record-breaking 4.2 million robots work in factories across global industries today, assembling computers and mobile devices, packaging millions of goods, inspecting final products for quality control and monitoring performance of production lines. **READ MORE**
